**Walk coordinator:** Val Baxter

**Difficulty:** Moderate, with some steps and gentle ascents on a well formed track. Duration could be up to three hours with photographic stops and an easy pace. No age limit and children most welcome.

*One of Tasmania's Great Short Walks, offering the best of Mt Field's lower altitude tracks. We will first visit Lady Barron Falls, via a gentle incline and then a long flight of timber steps to the river below. After the falls we cross the Lake Dobson Rd and connect with the Tall Trees circuit to admire the swamp gums, which are among the tallest trees in Australia. The track then continues to the Horseshoe Falls, descending through rainforest, and down another set of steps to Russell Falls and return to the Visitor Centre.*

*You will need to organise your own transport to the Mt Field National Park Visitor Centre. Driving time approx one and a quarter hours from Hobart.*

**What to bring:** Drink, snacks, wet weather clothing and sensible walking shoes. Vehicles will need a Parks Pass, which can be purchased from the Visitor Centre.

## **MOUNT FIELD EAST VIA LAKE FENTON – Saturday 14 April**

**Walk coordinator:** Peter Franklin

**Difficulty:** Generally considered a moderate to slightly hard walk as it does cross boulders

**Duration:** 5 hours

*From the Lake Fenton carpark, the track passes Lake Fenton where fagus (deciduous beech) should be starting to take on autumn colours. It is a steady but not overly steep climb to Windy Moor. The moor has recently had timber planks installed to protect the cushion plants growing there and to improve the walking experience. It is a kilometre to cross to the foot of the ascent of Mount Field East. The climb to the peak is over boulders and is optional. Return will be by the same track.*

*The track from the carpark to the foot of Mount Field East is 3.1k with the elevation gain 230m. The (optional) climb to the summit is 400 metres.*

**What to bring:** This is a high country walk and parts are in exposed elevation. The walk will not proceed if the weather is unsuitable. April is prone to sudden climate changes and warm clothing and wet weather gear is needed. You will need to bring lunch and water. Vehicles will need a Parks Pass, which can be purchased on the day at the Mt Field National Park Visitor Centre.
